CORE PRINCIPLE

THYRM was founded on the belief that innovative, robust products make users more effective and resilient.

PUT IN THE WORK

Great product design requires full immersion in the user's environment & ruthless testing. THYRM products don't launch until our subject matter experts are fully satisfied.

STAND FOR SOMETHING

THYRM backs all products for life, providing our soldiers, emergency personnel and responsible citizens the support they deserve. Designing and manufacturing products in the USA contributes to our communities, speeds product development, and keeps products in stock.
